BACKGROUND FOR DEVELOPMENT OF GRANT

The Connecticut State Department of Education (CSDE), Bureau of Special Education and the Connecticut Association of Schools (CAS) partnership

This special education executive coaching model was developed as a result of requests from the field indicating that special education and other administrators would benefit greatly from the support of an executive coach with special education expertise. It was determined the CSDE would support this model through an application process made available to districts. Grant awardees will receive a coach at no cost for the services provided.

The primary focus of executive coaching is to enhance the leadership skills of motivated, achievement-oriented professionals looking to excel in their current roles. Differentiated support will be provided as determined by the administrator based upon the individual, school and/or district needs. Possible outcomes may include creating systems of support for the new IEP implementation; increased job effectiveness; improved staff satisfaction and retention; timely responses and resolutions to compliance-related matters; improved staff and family communication; and increased parent satisfaction. It is anticipated that the coach will assist the administrator and staff in managing special education requirements that support effective programming and services for students with disabilities.

Through this grant, the CSDE and CAS will work collaboratively with partner districts to:

- Support an administrator and staff overseeing special education matters;
- Support administrator's work in new initiatives and trending problems of practice;
- Support administrator through challenges;
- Build capacity for supporting accelerated and equitable learning experiences for all students, particularly, students with disabilities; and
- Enhance district capacity for implementing and sustaining successful practices that are developed throughout the year by providing training, technical assistance, and resources to identified administrators.
