2. Sample Goals for Leaders and Educators

As you begin to consider the development of your goals and professional learning plans we are providing a set of “examples” for leaders and educators. While these are not to be considered “exemplars” they are examples that represent a variety of leader and educator roles that may be used to prompt conversation and understanding of the goal setting and Professional Learning Plan process. Throughout the year we will engage in a process to collect “exemplars” to be shared out.
